

University of International Business and Economics International Summer School

PSY 110 Introductory Psychology: Principles of Psychology

Term: May 28- June 28, 2018

Instructor: Dr. Mark Holder

Home Institution: University of British Columbia

Email: mark.holder@ubc.ca

Class hours: Monday through Thursday, 120 minutes each day

Office Hours: TBD

Discussion Session: 2 hours each week

Total Contact Hours: 66 contact hours (45 minutes each)

Credit: 4 units

Course Description:

Psychology is the study of human behavior, cognition, and emotion. This course is designed to provide an introduction to the field of psychology. It will cover basic concepts and research findings in the areas of experimental methods, neuroscience, consciousness, human development, memory, perception, and learning. In this course we will discuss psychology as a science emphasizing recent and classic empirical findings and theories. Please be aware that this course will cover a great deal of material in a short amount of time. Be prepared to devote at least two hours outside of class each day to the readings.

Required Text:

Myers, David. (2015). *Psychology, 11th edition*. New York, NY: worth Publishers.

ISBN-10: 1464140812

ISBN-13: 978-1464140815

You will be expected to complete each day's reading assignment *prior* to each lecture. Lectures will cover some (but not all) of the main points in the readings but lecture will primarily provide material in addition to the text. You are responsible for both the textbook material and the lecture material. In some cases, it may be difficult to follow the lecture if you have not completed the assigned reading prior to the lecture. Please keep up with the readings as this course will move very quickly, and you will fall behind if you leave the readings for the weekends.

Attendance:

You are expected to attend each class. If you miss a class you will be at a serious disadvantage and you will still be responsible for the material from lecture that you missed. To learn the material, obtain the lecture notes from at least one classmate, and then see the professor during office hours. Should you suffer from an extended uncontrollable absence, we can arrange a medical withdrawal from the course.

Grading Policy:

You will be graded on three exams: Midterm #1 (worth 20%), Midterm #2 (worth 35%), and a final exam (worth 45%).

The exams will be a combination of both short answer questions and multiple choice questions. You will be given many examples of the multiple choice questions and answers throughout the semester at the start of each lecture. This will help you study for each exam.

The exams are cumulative (e.g., though Midterm 2 will emphasize the middle portion of the course, answering some questions correctly will require that you have an understanding of the information from the first part of the course). All exams will cover material presented in the text and lectures (i.e., some material that you will be tested on will only be discussed in lecture, some material will only be described in the text, and some material will be covered in both lecture and the text). The exams will include both objective questions (e.g., multiple choice) and short answer questions (e.g., defining terms, explaining theories, and giving examples).

You will receive numerical grades for each of the exams. Your final grade will be the cumulative score of each quiz and exam multiplied by its percentage of weight. Letter grades will be awarded as follows:

A	90-100	C+	72-74
A-	85-89	C	68-71
B+	82-84	C-	64-67
B	78-81	D	60-63
B-	75-77	F	below 60

Course Schedule:

Date	Class	Topic	Assigned Readings
May 28	1	Introduction & History	Prologue
May 29	2	Scientific Method and Measurements	Chapter 1
May 30	3	Scientific Method and Measurements	Chapter 1
May 31	4	Brain and Behavior	Chapter 2
June 4	5	Brain and Behavior	Chapter 2
June 5	6	Midterm #1	No readings
June 6	7	Consciousness: Drugs and Sleep	Chapter 3
June 7	8	Sensation and Perception	Chapter 6
June 11	9	Sensation and Perception	Chapter 6
June 12	10	Development	
June 13	11	Development	

June 14	12	Midterm #2	No readings
June 18	13	Human Memory	Chapter 8
June 19	14	Human Memory	Chapter 8
June 20	15	Learning	Chapter 7
June 21	16	Learning	Chapter 7
June 25	17	Positive Psychology	Chapter 12 (only pages on positive emotions)
June 26	18	Positive Psychology	Chapter 12 (only pages on positive emotions)
June 27	19	Review	No readings
June 28	20	Final Exam	No readings

Academic Honesty:

Academic dishonesty includes any effort to take credit for work you did not do. Academic dishonesty includes cheating on tests by trying to copy the work of a fellow student or by attempting to use unauthorized sources such as notes, cell phones, or other electronic devices during exams. Plagiarism is also a form of academic dishonesty. Although we do not have writing assignments for this course, please be aware that plagiarism (failing to cite sources appropriately) is considered a serious violation of standards. If our staff detects academic dishonesty of any sort you will receive a failing grade for the assignment in question.
